

## MIDNIGHT PANTHER CHEER COVID-19 SAFETY PROTOCOL

*Midnight*  
**PANTHER CHEER**

Testing is recommended and available to anyone with cold, influenza or COVID-19 symptoms, even mild ones. The app will let you know where to go to get tested. Or, you can call 811 for help.

If someone in the gym tests positive with COVID-19, Midnight Panther Cheer will work with the health authority and provide them with the information they need to do contact tracing. The health authority will contact anyone whom they deem necessary to inform of any next steps. MPC is not allowed to share any private health information for any of our families.

These MPC protocols are effective September 2020. If there are changes mandated from the BC health ministry, these protocols will be modified.
